CASKET VERSION - Bald Cypress Superior, Satin finish

COFFIN VERSION - Black Willow Extra, Satin finish

A UNIQUE PRODUCT

A TOUCHING CEREMONY

A REMARKABLE EVENT

THE PAPER HEARTS

Paper Hearts can be inserted within the spaces left by removing the individual engraved wooden hearts. These may contain a written epitaph to leave with your loved one.

Example: "Dear Grandpa, please watch over us from Heaven..."

THE BOOKLETS WITH MINI-PENS

Small booklets entitled *"The Heart Coffin Ritual"* and mini-pens, both personalised with the name of your Funeral Parlour, can be placed in the Church pews in order to facilitate distribution for the participants of the ceremony.

These help the Funeral Parlour explain the emotional aspects of the Heart Coffin ritual.

Inside the booklet you'll find the following phrase:

"During this ceremony, we may take, should we so desire, a small wooden heart from the Heart Coffin Scrigno del Cuore of our loved one, as a memory to be forever cherished.

In it's place, we may leave a message using the paper hearts herein contained."

THE SIGNATURE BOOK DISPLAY

The display positioned near the Signature Book contains the following phrase:

"Leave in this book a brief thought or simply your signature, which will remain a cherished reminder of your presence with us on this special day.

During the ceremony, should you so desire, you may take with you a small wooden heart in memory of our loved one."

THE SIGNATURE BOOK

The Signature Book allows the participants to leave their names as a testimonial to having been a part of the ceremony and having taken a wooden heart in memory.

SHIPPING DETAILS

Heart Coffin products are delivered in custom-made, highly protective polyurethane packaging, specifically built to protect it from any transport damage. This packaging is moreover designed to facilitate handling by transpallets or similar moving instruments.
